

KEHL'S Koloring Book

**LEXINGTON COUNTY
EMERGENCY MEDICAL SERVICES**

**Paramedics and EMTs are our friends.
Don't be afraid.**

Paramedics like Mr. Kehl will sometimes take you to the hospital when you're sick or injured.

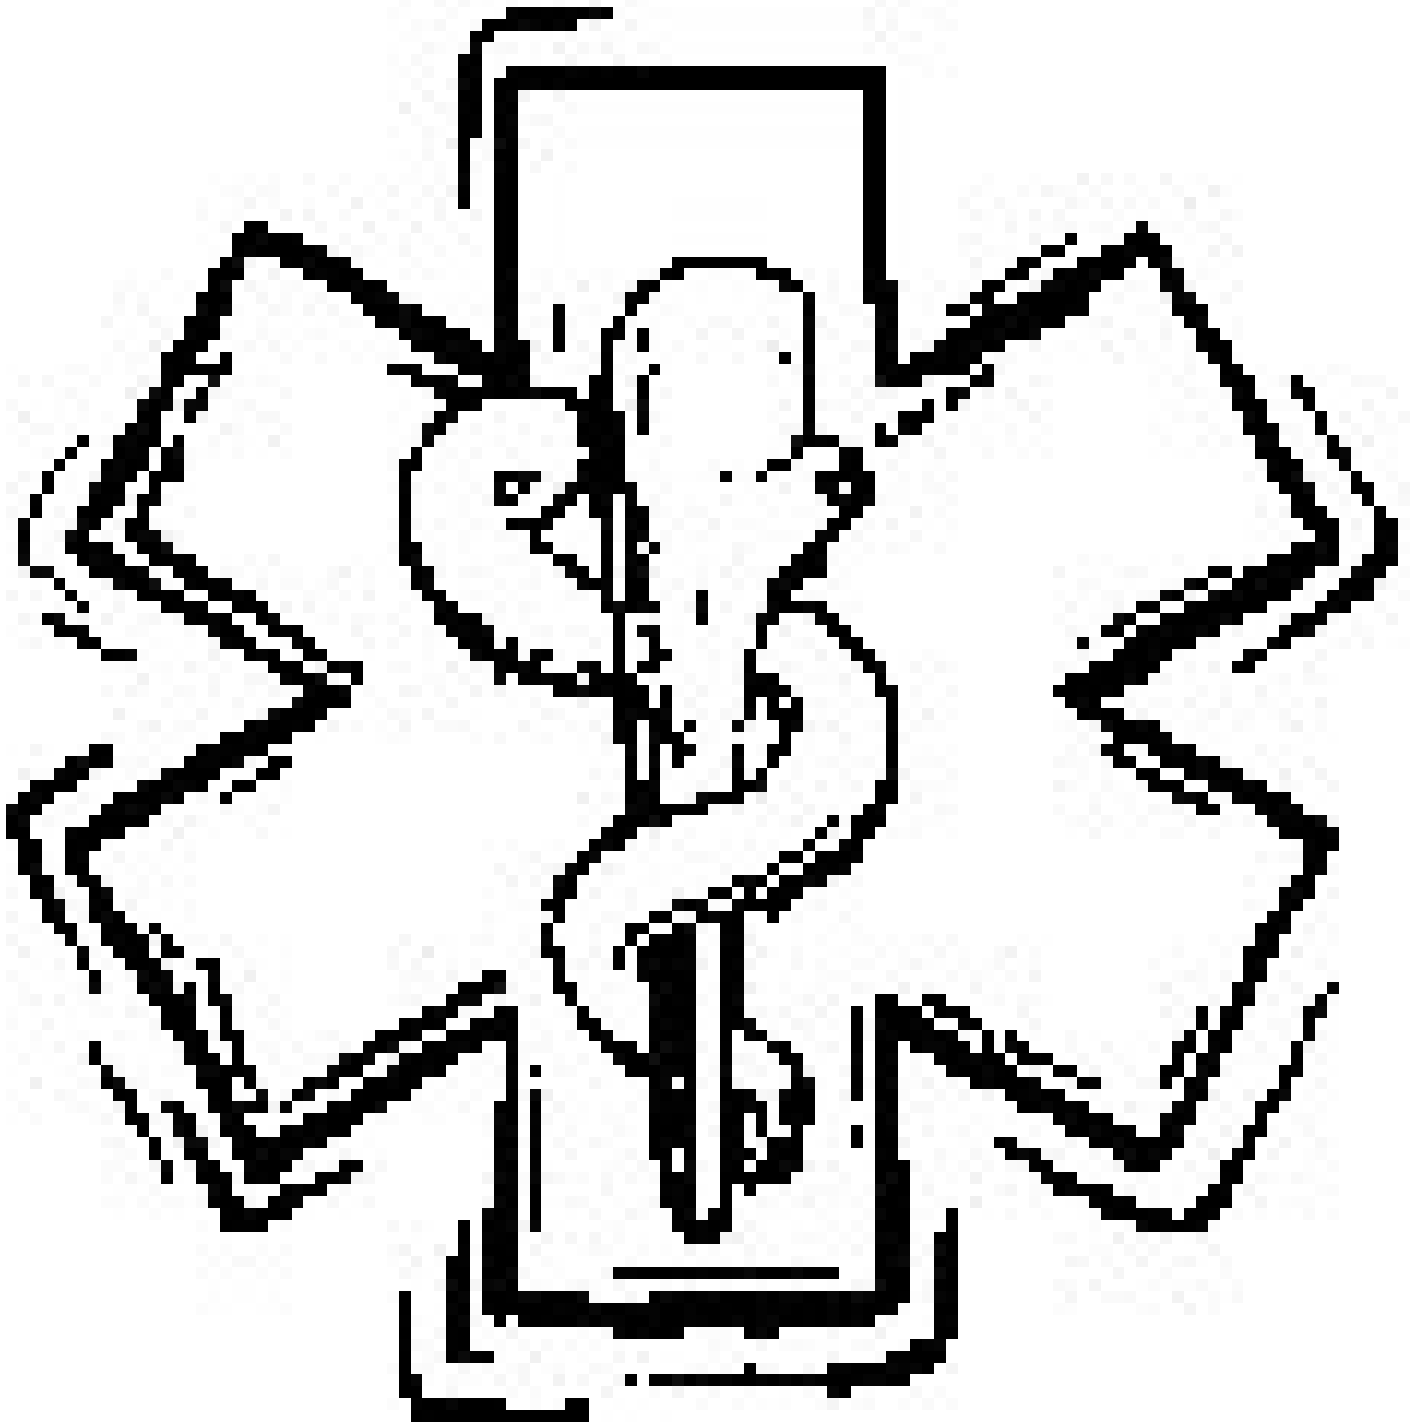

The most important thing you need to wear when riding a bicycle goes on your head - a helmet.

Protective gear is anything you wear that helps keep you from getting hurt. The gear you wear depends on the sport you play. See if you can pick out the protective gear needed while skateboarding.

Always wear a life jacket when you play near the water. Never use a float or swimmies as a life jacket and never go near the water unless you are with an adult.
